

ANNEX XI TO CHAPTER 4

IMPORT CHECKS AND INSPECTION FEES

A. Principles of import checks

Import checks consist of documentary checks, identity checks and physical checks

As regards animals and animal products, the physical checks and its frequency applied shall be based on the risk associated with such imports.

In carrying out the checks for plant health purposes, the importing Party shall ensure that the plants, plant products and other objects shall be meticulously inspected on an official basis, either in their entirety or by representative sample, in order to make sure, that they are not contaminated by pests.

In the event that the checks reveal non-conformity with the relevant standards and/or requirements, the importing Party shall take measures proportionate to the risk involved. Wherever possible, the importer or his representative shall be given access to the consignment and the opportunity to contribute any relevant information to assist the importing Party in taking a final decision concerning the consignment. Such decision shall be proportional to the risk.

B. Frequencies of physical checks

B.1. Import of animals and animal products into the European Union and Ukraine

Type of frontier check	Frequency rate
1. Documentary checks	100 %
2. Identity checks	100 %
